

Hourglass Industries, Inc. Introduces Cleanroom Nitrile Gloves with Improved Comfort and Latex-Like Grip

Hourglass Industries, Inc., a direct importer and redistributor of high quality cleanroom gloves, today announced the launch of [HandPRO 9100 Nitrile Clean Class 100 Gloves](#) with improved comfort and latex-like grip.

Colorado Springs, CO ([PRWEB](#)) June 04, 2012 -- Hourglass Industries, Inc., a direct importer and redistributor of high quality cleanroom gloves, today announced the launch of HandPRO 9100 Nitrile Clean Class 100 Gloves with improved comfort and latex-like grip.

HandPRO 9100 Nitrile Clean Class 100 Gloves are made from accelerator-free and sulfur-free nitrile, and provide optimal protection for the worker and the product. The low modulus, anti-fatigue nitrile formulation reduces the stress on delicate hand muscles and nerves and can be worn comfortably for extended periods. The gloves also provide an improved grip over traditional nitrile cleanroom gloves, even in wet environments.

“This is the first truly worker friendly and product friendly glove. The importance of this new anti-fatigue, ergonomically friendly compound cannot be understated. Workers wearing this glove will notice the improved comfort and latex-like grip, and can work more safely,” says Stephen J. Atwood, President of Hourglass Industries, Inc.

Designed to meet the strict standards of the medical device, pharmaceutical and semiconductor industries, HandPRO 9100 cleanroom gloves are static dissipative and exceptionally clean with low particle and extractable levels. The gloves are designed to meet the exacting needs of the critical environment work force and are suitable for ISO 5 / Clean Class 100 environments. Manufactured in a Quality Management System ISO 9001:2008 certified facility, the gloves conform to all relevant ASTM glove standards and applicable IEST cleanroom standards.

HandPRO 9100 Nitrile Clean Class 100 Gloves are white and available in sizes extra-small through extra-large to ensure a comfortable fit. The gloves are packaged 100 pieces per bag and 10 bags per case. Samples can be requested online at www.hourglassindustries.com/product/handpro-9100/ or by emailing [request\(at\)hourglassindustries\(dot\)com](mailto:request(at)hourglassindustries(dot)com).

Hourglass Industries, Inc. is a U.S. company servicing the growing global need for hand protection under the HandPRO brand of nitrile, latex, vinyl and synthetic gloves.
