

Hourglass International Introduces Cirrus800™ White Nitrile Exam Gloves

Hourglass International, Inc., a direct importer and redistributor of HandPRO™ brand gloves for the dental, medical, industrial, cleanroom and food safety industries, is pleased to introduce a new product, Cirrus800™ White Nitrile Exam Gloves in high-count packaging.

Houston, TX ([PRWEB](#)) April 24, 2013 -- Hourglass International, Inc., a direct importer and redistributor of HandPRO™ brand gloves for the dental, medical, industrial, cleanroom and food safety industries, is pleased to introduce a new product, [Cirrus800™ White Nitrile Exam Gloves](#) in high-count packaging.

Cirrus800 White Nitrile Exam Gloves combine soft, cloud-like comfort with strength and durability. The gloves are finger textured for a secure grip, and the thin-modulus nitrile material ensures excellent tactile sensitivity. Cirrus800 is powder-free and is not made with natural rubber latex, reducing the risk of Type I latex allergy. The clean, cloud-white color is gender-neutral and projects a professional image, making it an easy choice for all members of dental and medical teams.

Cirrus800 is packaged 200 gloves per box, double the industry standard of 100 gloves per box. The new high-count packaging saves valuable shelf space, reduces re-order frequency, and eliminates packaging waste by 50 percent.

“Cirrus800 is our first glove in advanced packaging. This high-count packaging design reduces costs, and more importantly it reduces the strain on the environment,” says company President, Stephen J. Atwood. “The glove’s nitrile material has the same comfortable feel we all loved about latex. We are proud to present this new glove, and we hope everyone will be just as excited about it as we are.”

This new examination glove is available in five sizes from extra-small to extra-large. The reorder numbers are 800 (extra-small,) 801 (small,) 802 (medium,) 803 (large,) and 804 (extra-large.) Sample packs of Cirrus800 can be requested online at www.hourglass-intl.com/cirrus800-white-nitrile-exam-gloves/ or via email at [request\(at\)hourglass-intl\(dot\)com](mailto:request(at)hourglass-intl(dot)com).

Hourglass International, Inc. is a U.S. company serving the growing global need for PPE under the HandPRO™ brand of nitrile, latex, vinyl and synthetic gloves and face masks.
