

SAFETY DATA SHEET

HandPRO® 617000 Sterile Clean Class Nitrile Gloves

Section 1: Identification

Product

Gamma Irradiated, Ambidextrous, Single Use, Powder-Free, Textured, Accelerator-Free, Sulfur-Free Nitrile Gloves, White Color.

Intended Use

A Powder Free Nitrile Glove is a non-medical grade glove that provides an economical solution for a multitude of applications where hand protection is a priority. It is a disposable glove made of synthetic rubber to provide a uniform degree of protection over the hand.

Manufactured For: Hourglass International Inc. & Kosline Inc.
5100 E. 2nd St
Benicia, CA 94510
USA

Phone: 800-277-0994

Recommended Use

For non-medical use. Single use only.

Restrictions On Use

Do not use for handling organic solvents.

Section 2: Hazard(s) Identification

1) Biological hazards

- Components used in glove manufacturing may cause allergic reaction in some users.

2) Hazards related to re-use of the glove

- Re-use of the sterile single use glove, leading to
 1. loss of product lot traceability and sterility
 2. risk of contamination and infection increases due to improper cleaning process,
 3. damages / weakening by the cleaning process leading to increased risk of holes and tear during re-use.

Section 3: Composition/Information on Ingredients

Carboxylated Butadiene Acrylonitrile Polymer Latex (NBR,) Zinc Oxide, Potassium Hydroxide, Titanium Dioxide

Section 4: First-Aid Measures

None, as glove is non-hazardous.

Section 5: Fire-Fighting Measures

Extinguishing Media : Foam, Carbon Dioxide, Water, Dry Powder and Fire Extinguishing Media may be used.

Flash Point : N/A

Section 6: Accidental Release Measures

None.

Section 7: Handling and Storage

- The product should be stored in a cool, dry place avoiding exposure to direct sunlight, high temperature and humidity.
- After the package is open, direct sunlight, fluorescent lighting and devices generating ozone should be avoided, and the product should be kept away from X-ray apparatus.
- Do not store these gloves with organic solvents as these solvents can degrade the glove.
- Ventilation is not necessary under normal storage condition.

Section 8: Exposure Controls/Personal Protection

None.

Section 9: Physical and Chemical Properties

1) Feature

Gamma Irradiated, Powder-Free, Single Use, Textured, Beaded Cuff, Ambidextrous, Nitrile Gloves

2) Form

Soft solid form

3) Color

White

Section 10: Stability and Reactivity

Stability : Stable
Condition to Avoid : None
Incompatible Material : Gloves are easily contaminated while in contact with copper content material.

Section 11: Toxicological Information

The chemical formulation of the gloves and surface lubricating materials do not contain any substances normally known to be harmful to the user or to any person with whom the gloves get in contact.

Section 12: Ecological Information* (non-mandatory)

N/A

Section 13: Disposal Considerations* (non-mandatory)

The gloves are non-biodegradable product where special decommissioning or disposal is required.

Section 14: Transport Information* (non-mandatory)

No special transportation requirements.

Section 15: Regulatory Information* (non-mandatory)

Quality Assurance:

Manufactured under following Quality Management System:

1. ISO 13485
2. CAN/CSA ISO 13485
3. ISO 9001
4. US FDA QSR

Section 16: Other Information

Date of Preparation: November 23, 2020

*Note: Since other Agencies regulate this information, OSHA will not be enforcing Sections 12 through 15 (29 CFR 1910.1200(g)(2)).
